Reasons for Allowance

1. This application has been examined. The amendment filed 9/21/05 has been entered.

2. The following is an examiner's statement of reasons for allowance: The amendment filed 9/21/05 places the application into condition for allowance by incorporating into the independent claims the allowable subject matter including the mask/reveal overlay of an object in the video layer using the graphics layer, in which the graphics layer program guide provides specific emphasis and de-emphasis of objects in the video layer. The prior art does have program guides, some of which even overlay video, but the present invention distinguishes over the art in that the program guide graphical user interface masks and reveals user specific selectable objects in the video layer to provide emphasis and de-emphasis of the objects, all through the service provider video and subscriber equipment converted program guide integration.

Independent claim 1 amended recites the system, and independent claim 16 amended recites the method, and such that the mask/reveal overlay is produced within the subscriber equipment thus to be presented with the graphic layer program guide.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
